## Turning a joke on Artemus Ward.

Artemus was lecturing, with his

panoramas of Salt Lake, in Canada,

and as his business was good he was

correspondingly high spirits, and his

pockets were full of coin.

The day before they were to leave,

Smith told Ward that as "silk was

so much cheaper in the British Pos-

session than in the United States he

had purchased a large piece of silk

and was going to take it to his wife

as a present. Ward was pleased

with the idea, and in the same con-

ference, told Smith that he had also

purchased a piece of melon cloth, and

both conferred with each other as to

the best way to secure the goods so

as to pass the custom-house.

Ward suggested to Smith to wrap

the silk around his body and Smith in

turn advised Artemus to place his

cloth within the folds of his panora-

ma of Salt Lake. They each agreed

to take the other's advice, and Smith

left in the morning to go over to the

State in advance. The bundle of

silk around him made him feel

quite uncomfortable, especially

when he came to the custom house

and interrogated about his baggage

commenced.

The official was very polite, and

passed his baggage without a mur-

mur, and then invited him to his

private office, handed him a cigar, and

begged him to take a seat.

The heat of the room began to

make Smith very uncomfortable, and

he arose to go.

"Be seated, sir," said the official,

"I want to have a little chat with

you."

"No; I must be going," said the

general John. "I can't stand sitting so

long and, then, I've a great deal to

attend to."

"You seem to be a very stou-

ch kind of a man," said the official.

"Yes," said Smith, his face getting

red and the warmth of the silk in-

creasing. "I'm pretty solid, but I

can't stand a hot room."

"Ah!" said the "suspecter," "what's

the trouble? Anything the matter

with your chest or lungs?"

"Only a slight oppression," replied

Smith.

"Oppression about the lungs!" ex-

claimed the officer, rising and ad-

vancing toward the suffering agent.

"Let me make an examination for

you, sir; it may be dangerous. Please

remove your coat."

"It's nothing; it will soon pass

away," replied Smith, inwardly pry-

ing for a chance to escape.

"My dear friend you should not

allow yourself to suffer a moment."

said the officer, "and I insist upon

examining your chest. Doubtless I

can relieve you of all your troubles."

The inspector insisted, and the

discontented agent, after vainly try-

ing to escape from his solicitation, finally

acknowledged the error and confessed

to having the concealed silk upon his

person.

The officer laughed heartily and

said, "I knew it all the while."

"Here's a letter I received this morn-

ing," and he handed Smith a letter

written by Mr. Ward, informing the

inspector that a smuggler would en-

deavor to pass a quantity of silk, de-

scribing Smith's appearance, and

claiming one half of the reward for

the information. Smith was indig-

This should not be so. There should be no discrimination by retailers in favor of any one manufacturer. The system of introducing new articles should be just and undiscriminating. It is a patent fact that in all cotton-growing countries the inhabitants are disposed to be idlers. A Tennesseean has just cried *eureka!* and now demonstrates the proposition, that the average Tennesseean over the age of twenty-one, works only one hundred days in each year. Both public and private financial ruin must inevitably come where two-thirds of a population is feasting on the legitimate labor of the one-third. Every other population can be readily accounted for, on this basis.

The Turnpike meeting at Liberty, on last Saturday, failed to make a definite decision as to the length the pike should be and will have to call another meeting we presume, at an early day.

The meeting of stockholders of the Christian County Agricultural and Mechanical Association, advertised to convene yesterday, was postponed, until Monday next. All members are requested to attend at the Court House.

The score of the Hopkinsville shooting club, which convened Friday, indicates that there is much latent talent in the membership, which will undoubtedly be felt as soon as Howard Speck ceases his unparalleled record of breaking in thirty two shots every ball except thirty one.

There will be a turnpike meeting at the residence of B. S. Campbell, 4 miles from town, on the old Canton road, on Saturday, the 8th day of March, 1879, at 9 o'clock. The object of the meeting is to devise means for the building of five miles of pike on that road from Hopkinsville. There will be a large and enthusiastic attendance.

The work should have been commenced several years ago. Many of our people have been compelled to take unadmirable lots in the old cemetery. — *See Editor.*

"Crucel" is not enough to be forced to take desirable lots in the new, but when we are compelled to take undesirable lots in the old cemetery, why, it's the very lowest calling from life. Forsooth, it's more "crucel" than publishing the score on G. Howard Speck, or any other man, at a dead-shot, short-ranged shooting match.

Our young friend J. H. Galtbreath is a member of the firm of Galtbreath & Co., Commission, Sugar, Molasses, Rice, &c., in Chicago and New Orleans. John's headquarters are in Chicago.

Mr. G. W. Jones, a prominent farmer from Triggs county, has been earnestly solicited to become a candidate for the Legislature. Mr. Jones would make a faithful representative if elected.

Will Hawks, representing the wholesale tobacco and cigar house of Whitworth & Moore, Nashville, spent several days in this city in the interest of his house during the past week. He is a very popular young man and has a host of appreciative friends in our midst.

Our clever friend, Fat Wilson, of Hopkins, candidate for legislator, spent only two days in the canvass of this county. We are afraid he is giving too little attention for his own good. However, he is financially unable to make a vigorous fight and we hope adjoining counties will remember this.

That kind hearted, good natured friend of everybody, Penny Turner, has opened a large and fresh stock of Confectioneries, fruits, toys, &c., at the newly renovated stand adjoining How's Jewelry Store, Main street, and without his good friends will practically remember him. Turner is every one's favorite and justly so too, for we can testify to his honesty, fidelity and merit after a close and intimate acquaintance of about five years. If he does not do a thrifty trade in his new enterprise, then hundreds of capable judges will have predicted to the contrary.

The ladies of the Presbyterian church, S. G. A., will give a Candy Pulling on next Friday, at the residence of Dr. L. B. Hickman, over the Bank of Hopkinsville, for the benefit of the Sunday School. Admission, 25 cents. The occasion will be one of unalloyed sweetness to both old and young, and we predict a large crowd for the enjoyable entertainment.

A New and Convenient Route of Travel from Hopkinsville to Louisville and Cincinnati.

Parties wishing to visit Louisville, Cincinnati and points East, will find it to their advantage and comfort to take a St. L. & E. train via Henderson and Evansville. The Louisville and Evansville Mail Boats make regular trips between Henderson and Louisville. The Grey Eagle, Morning Star, and James Guthrie compose the line, all of which are large side-wheel steamers. Few boats in the Ohio or Mississippi rivers surpass them in beauty, speed and accommodations. The officers are kind and gentlemanly and are always found at their posts. The bill of fare is equal to any hotel. The state rooms are neat and commodious, in fact everything required for the comfort of passengers is at hand and generously dealt out. The Grey Eagle leaves Evansville every Monday at 10 o'clock. On all other days, except Sunday, boats leave as follows: Tuesday 6 P. M., Morning Star; Wednesday 6 P. M., James Guthrie; Thursday 6 P. M., Grey Eagle; Friday 6 P. M., Morning Star; Saturday 6 P. M., James Guthrie. These boats land at Owensboro and all points on the Ohio, between Evansville and Louisville. At Louisville the boats connect with the regular steamers of the U. S. Mail line for Cincinnati and intermediate points. The U. S. Mail line steamers connect with all Eastern trains at Cincinnati. Parties wishing to take the Monday morning boat, Grey Eagle, from Evansville, must leave Hopkinsville on the night train. The noon train north from Hopkinsville connects with the 6 P. M. boats at Henderson and Evansville. Parties wishing to go to Paducah and Cairo, can take boats at Evansville, that run in connection with the above lines.

Our merchants say business is very dull with them, owing to the fact that but few farmers in this section have sold their tobacco, though the prospects for better business is somewhat flattering, as a good deal of the weed is being hauled to market now. The question has been argued by our farmers, whether it pays to raise tobacco or not. The prevailing idea is that "it does not," because they have been so extensively prepared for the next crop that for several years past.

A good many cats are being sown. Some have finished sowing. We think the early sowing preferable as they will mature earlier and are not so liable to take the rust and fall down.

Your correspondent is the possessor of a cat that has a rare fondness for music. When any musical instrument is being performed on the dance, parades, and pots himself in many shapes and becomes very restless, continuing so as long as the music continues. This cat has never been trained, hence the peculiarities mentioned.

Quite an enjoyable affair in the way of a hop was given on Wednesday evening last by Mr. Wm. A. Hickman, which, in every respect was a grand success. Many beautiful and fascinating young ladies were present, the music delightful, and what more need there be to make it the greatest party of the season?

The Bellevue precinct meeting was held here this afternoon at 2 o'clock to instruct and send delegates to the County Convention, which meets in Hopkinsville, Monday, the 3rd of March. The meeting turned out en masse, chose their delegates and instructed them definitely as to their preference, as follows: For Governor, unanimously for Blackburn; for Lieutenant Governor, Carr; for Attorney General, Blair; for Auditor, Howell; for Attorney General, Blair; for Superintendent of Public Instruction, Edgar; for Register, Boyd. The voting was done in a fair manner, and no one seemed to think that any trickery was used this time as was claimed one month ago. The people took great interest, and we are confident that the delegates are instructed in accordance with the wishes of the Democratic party of this precinct.

Yet a little while and the agony will be over. — *SHORT FELLOW.*

Letter from Blue Grass.

CARLESL, NICHOLAS CO., KY., Feb. 26th, 1879.

Ed. South Kentuckian.

Nicholas county lies within the famous "Blue Grass Region," and possesses a very productive soil. Thoroughbred horses of racing and trotting stock are extensively bred and exported; sheep, hogs and cattle are also raised in vast numbers. In addition to blue-grass, wheat, oats, hay, and hemp are the leading productions. The main roads of the country are well macadamized, and one branch of the Kentucky Central railroad passes through it. Carlisle, the county seat of Nicholas, is situated on the above named road, midway between Lexington and Mayfield, and 7 miles from the renowned Blue Lick Springs. It is a town of about 1,500 inhabitants and of considerable business importance, as it is a very large stock-shipping market. It contains a number of business houses and churches, and has also several schools, one of which is the Kentucky Normal School under the management of Prof. T. H. C. Vance. The Normal is well conducted and is doing a good work in the education of teachers. The teacher who intends to pursue the profession of teaching, will do well to attend this school. We can say, however, to the student coming that you will be received with that generous hospitality for which Kentuckians are so noted. The people of Carlisle give, on the 22d, an "Old Folks Concert," which was something new in the way of amusement; it was largely attended and proved a grand success. The singers were arrayed in costumes to

The New York Tobacco Leaf, commenting on the market, thinks that the good news from Washington in relation to the passage in the Senate of the Revenue bill reducing the taxes on manufactured tobacco and snuff, will revive the trade. Trade in tobacco of all kinds appears to have been light during the past week. Business will in all probability speedily revive now that the tax question is in a fair way of settlement.
